

iTSCOM System

Guidance will be provided for necessary devices and installation to persons with new contracts or additions and changes to subscriptions.

Cable connected to the TV wiring will replace the existing antenna.

Please feel free to ask any questions concerning the service or installation process.

<iTSCOM System>

*iTSCOM provides digital-to-analog conversion.
 Analog signal can be used until March 31, 2015
 * A signal booster may be used if the building is already equipped with one.
